## Activities:

--**Hands and Feet Bouquet:** Paint each of child's hands and feet a different color and then stamp them on a piece of paper. Cut out each print. Use 2 handprints and 1 foot print as the flowers. Glue them onto a piece of a paper and use green pipe cleaners or straws as the stems. Then glue the last foot print on as the vase.

--**Photo Tile Coasters:** use a 4x4" white, ceramic tile and print off a 4x6 photo. Cut photo to fit tile, leaving a small border of tile around photo. Add Mod Podge to back of tile to secure photo to tile. Have your child paint a layer of Mod Podge across photo onto the tile—make sure entire face of tile is covered. Let dry. Repeat, adding several layers of Mod Podge. Attach felt circles to the back 4 corners of the tile, making a water-proof drink coaster.

-- **5 Things About Your Mommy:** Learn more about Mommy by asking: 1) What is her favorite food? 2) What is her favorite color? 3) What makes Mommy happy? 4) What is something fun Mommy likes to do? 5) What is something Mommy would like you to do to help at home?
